### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:
2. The prior art, Chichanowski relates to polyglycol dielectric capacitor fluid, wherein certain examples show dielectric fluids comprising vegetable oils. However, the examiner contends that the fluids of Chichanowski are for use in capacitor devices and the claims of the instant application relate to transformer devices. Capacitors store electric energy and transformers are devices that change the nature of alternating current. Two separately and distinct devices. Moreover, it is held that "Even if the prior art device performs all the functions recited in the claim, the prior art cannot anticipate the claim if there is any structural difference". *In re Ruskin*, 347 F.2d 843, 146 USPQ 211 (CCPA 1965) as implicitly modified by *In re Donaldson*, 16 F.3d 1189, 29 USPQ2d 1845 (Fed. Cir. 1994). See also *In re Robertson*, 169 F.3d 743, 745, 49 USPQ2d 1949, 1951 (Fed. Cir. 1999). Therefore, the claims are allowable over the art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
